OBJECTIVE

To secure a challenging position as a Full Stack Developer where I can leverage my expertise in MERN stack, frontend technologies, and UI/UX design to create innovative web solutions while contributing to organizational growth and advancing my career in software development.

EDUCATION

Master of Computer Science   2023 - 2025
Bhoomaraddi College of Engineering and Technology, Hubballi
CGPA: 7.11

Bachelor of Computer Science   2020 - 2023
SilverOak University, Ahmedabad
CGPA: 7.85

SKILLS

Full-Stack Stack	HTML, CSS, JavaScript, React.js, MERN (MongoDB, Express, React, Node), Node.js, Express.js (in MERN), MySql, PHP, Git, Postman, API, Java
Design Tools	Figma, Adobe XD

WORK HISTORY

Class Representative, Master of Computer Applications   March 2023 - 2025
B V Bhoomaraddi College Of Engineering and Technology   *Hubballi, Karnataka*

UI/UX Intern   Feb 2023 - May 2023
Sparks to Ideas   *Ahmedabad, Gujarat*

PROJECTS

AutoMindMap. Built a full-stack MERN app (AutoMindMap) that converts text/video transcripts into AI-generated summaries, visual mind maps, and audio outputs, with chat refinement and a dashboard for session management

Feedback Analytics. This project is and online faculty feedback system built using MERN stack. It allows students to provide structured feedback on teaching effectiveness, replacing traditional paper-based methods with a scalable, user-friendly platform for analyzing performance trends.

CERTIFICATES

- Certificate for Java Bootcamp.
- Certificate of Achievement for Digital Skills: Artificial Intelligence.
- Certificate for completing professional development course: Full Stack Development using Java at Apponix Technologies.
- Certificate for participating in the CODEHER hackathon.
- Certificate for completion of MongoDB bootcamp.
- Certificate of completion the Complete Full-Stack Web Development Bootcamp at udemy.
